

07:00	Dining hall			Breakfast
	Conf. room			Pollination in Agriculture and Horticulture (w / chair: Bjørn Arild Hatteland)
08:30		Lisa Wasko DeVetter	T25	Pollination Insights - Optimizing Honey Bee Mediated Pollination in Highbush Blueberry
08:45		Chloé A. Raderschall	T26	Integrated Pest and Pollinator Management in Faba Bean (<i>Vicia faba</i>)
09:00		Catarina Siopa	T27	The Impact of Landscape Features on Pollination Services Provided to Sweet Cherry
09:15		Linn Vassvik	T28	Busy as a Bee – What Makes a Good Pollinator of Apples?
09:30				15 min break
	Conf. room			Pollination in Agriculture and Horticulture & Pollination and Climate Change (w / chair: James Thomson)
09:45		Jane Devlin	T29	<i>Osmia</i> vs <i>Bombus</i> : Can the Choice of Commercial Pollinator Influence Premature Fruit Loss?
10:00		Merijn Moens	T30	Mapping Pollinators in Fine-Scale Agricultural Landscape Elements
10:15		Paula Prucker	T32	Is Drought Mitigation of Insect Pollinators in Strawberries Limited by Climate-Dependent Activity?
10:30		Maxime Eraerts	F07	Synthesis of Apple Pollination Research Reveals Positive Contributions From Wild Bees relative to those of Honeybees
10:35		Emily Kate Millerchip	F08	The Factors Affecting Pollinator Diversity and Abundance on Crops in Urban Food Growing Spaces
10:40		Lucy A. Unwin	F09	The Effect of Temperature on Nectar Traits and Plasticity of <i>Phaseolus vulgaris</i> L.
10:45		Brandon S. Whitley	F10	Plant-Pollinator Networks across an Arctic Latitudinal Gradient
10:50				30 min coffe, tea and snack break
	Conf. room			Evolution of Pollination (w / chair: Renate Wesselingh)
11:20		Carolin Mayer	F11	JPE - Steps Ahead
11:25		Friederike Gehrmann	F12	Joint special issue in Nordic Journal of Botany & Journal of Pollination Ecology
11:30		Anina Coetzee	T33	The Influence of Nectar Robbers in Shaping Flower Colour
11:45		Amy L. Parachnowitsch	T34	Evolutionary Ecology of Nectar: SCAPE Update
12:00		Felipe Torres-Vanegas	T35	Pollinator-Specific Patterns of Phenotypic Selection on Floral Traits in a Pollination-Generalized Plant
12:15	Dining hall			Lunch
13:30	Lobby			Guided walk: History of Hardanger and Fruit Production (Meet in the hotel lobby)
	Conf. room			Evolution of Pollination (w / chair: Marcin Zych)
15:30		Magne Friberg	T36	Twelve Years of Research on Floral Scent Evolution (in 12 minutes)
15:45		Pedro Juárez	T37	Speciation and Local Floral Adaptation of Two Neotropical Spiral Gingers with a Pollinator Shift
16:00		Constantin Kopper	T38	Mountain Colonization Triggered Evolutionary Pollinator Shifts Away From Bee-Pollination in Melastomataceae
16:15				30 min coffe, tea and snack break

Conf. room		Evolution of Pollination (w / chair: Marcin Zych)	
16:45	Noa L. A. Schwabe	T39	Unilateral Adaptation - The Role of Trichomes in Shaping Pollinator Behavior in a Sexually Deceptive Orchid
17:00	Yedra García	T40	Living with the Neighbours: Co-flowering Community Effects on Reproductive Success and Selection on Floral Traits in Food-deceptive Orchids
17:15	Karin Gross	F13	Effects of Whole-Genome Duplications on Floral Scent
17:20	Felicitas Wolf	F14	Temporally Differentiated Recovery of Plants, Bees and their Interaction in Restored Grasslands in Saxony-Anhalt
17:25	Jennifer Rose	F15	Basque Bees in a Changing Climate: Preliminary Investigation of the Diversity and Community Structure of a Vulnerable Community
17:30	Juan Pablo Cancela	F01	Nutrient Enrichment Affects Plant-Flower Visitor Assemblage Interaction Patterns in a Mediterranean Grassland
17:35	Melissa Leon-Osper	F02	A Poppys Tale: Colour Variation in the West Mediterranean
17:40	Thomas A. Veldhuis	F03	Visual Mimicry in Ophrys Orchids
17:45			15 min break
18:00	Conf. room		Poster session 2 - even numbers
19:30-	Dinner hall		Dinner + closing ceremony and announcements
21:00			
21:00-	Conf. room		Party!
02:00			
20:00-	Pool area		Sauna / pool & socializing (closes 23:00)
23:00
